Description

Custom design and manufactured according to high standards combining simplicity with luxury.

Her interior spaces will provide with A-list accommodation. While an outstanding cabin will allow you to enjoy the night, during the day it can accommodate up to 10 guests on board.

Its sleek modern design doesn't compare to what one might imagine a speed boat to look like & most importantly, does not tell all the extra equipment added to make your journeys as safe, comfortable & luxurious as possible.
